LEARNER SHEET: ARTICLE ONE

THE BIG IDEA

God creates and sustains all that exists.

BIG FUN IDEA

Meet and go to a farm. Farmers have a unique relationship with creation. Through their stewardship of the land, one family can raise enough food to feed hundreds of other families. Ask the farmer to talk to the group about the kind of things they do to take care of their land so that it will still feed others generations from now.

BIG SERVING IDEA

As a small group, have a food drive for a local food bank. Learn what the biggest needs are at the food bank and make fliers to educate the congregation. Pick a day to collect the food and deliver it to the food shelf.

PRAYER TIME

Remember your partner's prayer needs—record them here.

DISCUSSION TIME

- **What is your favorite possession?**
- **What place in nature makes you feel especially close to God?**
- **If there are enough resources in the world to care for all people, why do you think so many people suffer from poverty and want?**
- **As Christians, how can we help God take care of creation?**
