

# Welcome

## Alpine Communications Email

Powered By

Your Alpine Communications high-speed Internet includes complete access to [Alpinecom.net](http://Alpinecom.net), powered by Zimbra, with a suite of convenient features to help you stay organized and connected.

### Email

<b>An easy-to-use and powerful email platform</b>	You can familiarize yourself with Zimbra email in just minutes, so you're up and running in no time.
<b>15 GB of storage space for email</b>	No need to worry about maxing out your email storage or archiving to save space.
<b>Anti-spam and antivirus protection for secure email</b>	It's easy to keep your inbox safe and clutter-free.
<b>No advertising — unlike free email providers</b>	Your email is private and ad-free. You don't have to deal with annoying ads in your email interface, or companies purchasing your information.
<b>Powerful search capabilities</b>	Quickly and easily find specific messages and filter results based on email address, date and more.
<b>Anywhere, anytime access to email online and through your mobile device</b>	Stay productive and connected wherever you are so you never miss an email.
<b>24x7 Internet technical support from Alpine Communications at 1-888-264-2908</b>	Enjoy peace of mind knowing we're right here to answer your email questions and give you step-by-step help.

### File Sharing

<b>Online briefcases let you upload, manage and share files from your email account</b>	Stay organized and connected, and easily and share files with family, friends and colleagues directly from the cloud.
<b>File access from anywhere</b>	As long as you have your smartphone, you'll never be without your important documents.
<b>Quick organization of documents, presentations, images and more, including email attachments</b>	You can easily store and retrieve emailed files.

## Address Book

Storage and organization for contact information in your address book	Make your life easier by consolidating all contacts into one spot.
Ability to create rich contact profiles with photos and add people to personal distribution lists for group emails	Save time and ensure that you send emails to the proper groups.
Email can be sent without having to look up contact information in a separate tab or window	No more screen jumping just to find that one contact that you haven't emailed in a while.
Appointments are scheduled by dragging and dropping contacts to your calendar	You can easily manage your appointments so you don't forget who you have to meet and when.
Address Book can be accessed from your smartphone	You'll always have your contacts handy.

## Calendar

Schedule can be shared with co-workers, family, and friends	Avoid double-booking and calendar mixups.
Multiple calendars for work and personal schedules	Maintain your privacy and control over who sees which calendars.
On-the-go calendar access	Conveniently check your schedule no matter where you are.
Customizable reminders	Never forget another event again! Make reminders for tasks, appointments, birthdays, etc.
Calendar works offline, without Internet	Always know where you're supposed to be.
Search, copy and save functions for appointments	Save time by copying recurring events instead of creating each appointment from scratch.
