

**CALL FOR PROFESSIONAL ON-SITE INSTALLATION**

Alpine Communications makes it easy to enjoy Internet at your home or business. Simply call to arrange a convenient installation appointment and our technicians will handle everything from there. They'll also be happy to answer any questions you have about your new Internet connection.

**High-Speed Internet installation** > \$49.99 one-time fee

**Modem purchase** > \$50.00

**Static IP (optional)** > \$10.00/mo.

**ENJOY MORE FREEDOM WITH WIRELESS NETWORKING**

Wireless networking from Alpine Communications makes it easy for everyone in your household to enjoy your High-Speed Internet connection. It's like turning your home into a Wi-Fi hotspot!

Rather than Internet access being limited to one room (such as a home office), wireless networking gives you the convenience of being able to go online from any room in your home or even from the backyard patio.

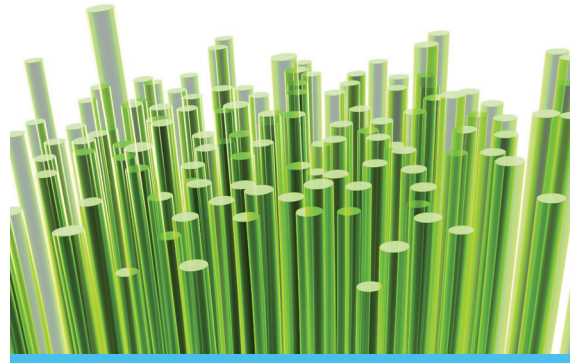

As part of the installation process, our technicians will secure your wireless network to protect it from hackers and bandwidth theft.

**Wireless Networking (during a High-Speed Internet installation)**

- \$100.00 for the first two computers/devices
- \$50.00 for each additional computer/device after the first

*Prices are for labor only and do not include equipment such as wireless routers and switches. Call Alpine Communications for a complete price quote on wireless networking.*

ENJOY  
FREEDOM

**REAL, LOCAL, AND READY TO SERVE**

Since 1997, Alpine Communications has helped our community residents stay connected with the latest advancements in clear, dependable communications services. As your local provider, we offer an expanding array of communications options along with responsive, local customer service. These options include Fiber-to-the-Home, High-Speed Internet, monitored security systems, computer networking, digital FusionTV, wireless phone service, telephone systems, local and long distance, and voice messaging.

Alpine Communications has a 100% fiber optic infrastructure and the latest digital equipment, meaning our customers have access to services that many residents of larger communities can't even get, including the fastest and most reliable broadband available.

Please contact us for more information about any of our products and services. We look forward to meeting your changing communications needs.

## FREE EXTRAS WITH EVERY ALPINE HIGH-SPEED INTERNET PACKAGE

Alpine High-Speed Internet is an all-around excellent value. Not only do you get high speeds at low monthly rates, but we also give you these FREE extras:

- FREE spam and email virus filtering\*
- FREE 24x7 Internet Tech Support
- FREE access to ESPN3.com
- FREE Internet training classes at Alpine
- FREE 5 email accounts

*\*Alpine scans incoming emails to our server for viruses and spam. Antivirus protection for your computer is still required.*

## SAVE UP TO 30% WHEN YOU BUNDLE

Take advantage of Alpine's money-saving Bundle Builder ([www.alpinecom.net](http://www.alpinecom.net)) to combine High-Speed Internet with Local Telephone and your choice of Long Distance, Television, Wireless, and Security services. It's an easy way to save on the communications services you need while enjoying the convenience of one local provider.

Prices are for customers who have Alpine home or business telephone service. High-Speed Internet is presently a distance-restricted service and is not available in all areas. Alpine Communications' technical division will gladly verify that your location will accept service. Please call (563) 245-4000 for details. The service can vary depending on location, line quality, Internet traffic, CPU speed, operating system configuration and other factors beyond the control of Alpine. We provide the service on a "best effort" standard and do not guarantee upload or download speeds. Uninterrupted or error-free service is also not guaranteed.

\*\*Bundle prices are for residential Peak Savings Paks. Businesses can receive discounted Internet pricing with a Peak Business Pak. Call for details. Some restrictions apply.
